

PRODUCT GUIDE

STORAGE & INTERIOR

When the bush becomes your backyard then your 4x4 becomes your home, make sure you have everything in the right place and locked down safe with our storage solutions.

Front Runner Universal Cub Box Drawer Systems

Front Runner Universal Wolf Pack Drawer Systems (Fridge slide sold seperately)

Front Runner Vehicle Specific Drawer Systems

FRONT RUNNER DRAWER SYSTEMS

STORAGE

Make better use of the large space available in the rear of your 4x4.

Front Runner offer a wide range of universal and vehicle specific drawer systems.

Front Runner has a range of tough, high quality drawer systems to suit your vehicle and transform the space inside your 4x4 into an organised, protected storage solution.

Keep your recovery gear and camping kit safe and secure when hitting those rough tracks and out-of-sight and locked away when at home or parked at the shops. A Front Runner Drawer System makes packing for that 4x4 adventure a breeze!

Talk to Opposite Lock about installing a Front Runner Drawer System in your vehicle or stop by your nearest store for a product demo.

DRAWERS WITH SLIDING TOP

This is a universal unit that is ideally suited for fitting into station wagon vehicles, as it is the only unit which has a sliding top and allows for easy access to the very back of the load bed.

Single Height / Double Width / 970mm Long

UNIVERSAL DRAWER SYSTEM

A drawer system that is universal in its use in different vehicles but is also used in vehicle specific kits that have side decks designed to fit specific vehicles.

VEHICLE SPECIFIC

This storage system is designed specifically for your Toyota Land Cruiser 70 and will make storage and organising your camping gear a complete no-brainer.

When only the best will do...

BOAB DRAWERS

SMARTER STORAGE SOLUTIONS

BOAB – THE BETTER CHOICE IN ROLLER DRAWERS

Installing roller drawers in your vehicle gives you easier access, extra security and added safety. Work or play, you'll be able to store gear where it's out of sight, easy to get to, and won't be rolling around!

- unique easy-fit adjustable mounting system suits most vehicles
- rattle-free construction
- sealed roller bearings
- all-metal drawers with felt lining
- black marine carpet exterior
- waterproof plywood top deck
- lockable drawers
- slam-shut catches
- built-in tie-down points
- built-in 'safety gap' avoids injury
- easily transferred between vehicles
- optional side filler panels for popular models

Double Drawer and Single Drawer in stacked configuration

DOUBLE DRAWER – WITH BUILT-IN FRIDGE SLIDER

The traditional 'full-width' double with the features, fit and finish you want! Ideal for big 4x4 wagons and dual cab utes. Gives you lockable storage with a built-in fridge slider, 8 tie-down points and ample storage.

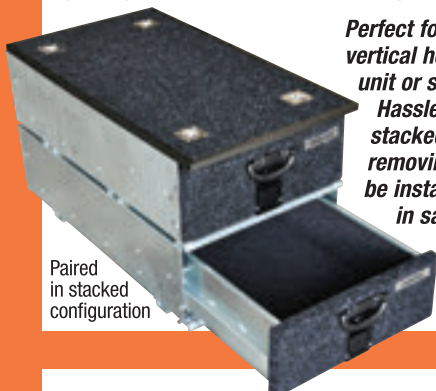

RDUNIDL Double Roller Drawer
Dimensions (w x l x h): 1070 x 990 x 275mm Weight: 70kg
Note: dimensions do not include side filler panels

SINGLE DRAWER – STANDALONE OR STACKABLE

Perfect for smaller vehicles or in applications where you need to retain vertical height space in your load area. Use as a standalone single unit or stack a pair together for twin-drawer storage.

Hassle-free installation, and easy conversion to stacked pairs with a simple drill and bolt-on job after removing lower drawer's carpeted top deck. Can also be installed on BOAB Double Drawer for the maximum in safe, secure, convenient storage space.

Paired in stacked configuration

Single unit in standalone configuration

RDUNIS Single Roller Drawer
Dimensions (w x l x h): 535 x 990 x 275mm Weight: 44kg
Note: dimensions do not include side filler panels

Optional side filler panels for that factory-fitted look. Available to suit a growing range of popular vehicles.

Heavy-duty flush mount tie down points built into every unit. Single drawer x4. Double drawer x8.

Lockable slam-shut catches. Sturdy ergonomic handles. Built-in safety gap on sliding drawers to avoid hand injury.

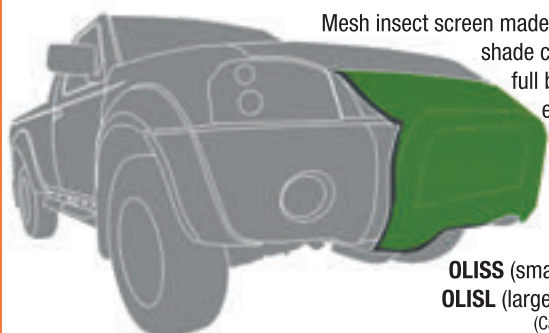

BOAB SOLUTIONS

BRIGHT IDEAS FOR YOUR 4x4

INSECT SCREEN

Stops insects, grass etc from blocking radiator – helps prevent overheating

Mesh insect screen made from high quality shade cloth material with full border seams and elastic cords fitted with hooks for simple installation and removal.

OLISS (small): 500 x 800mm
OLISL (large): 800 x 1000mm
(Can be used either way)

CARGO BARRIER NET

Separates luggage and passenger compartments for safety and security

Webbing barrier net for larger 4WD wagons. Ideal for extra protection when a metal cargo barrier is not possible or desirable. Comes complete with securing straps and metal mounting rings

OLBRLR
1400mm at base,
1050mm at top
650mm high

SEAT ORGANISER

Easy access seat back storage for maps, books, accessories and kids' gear

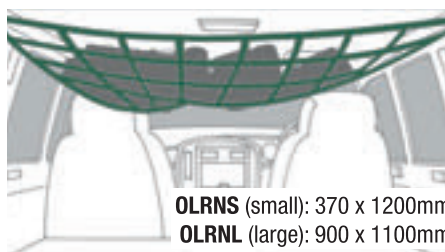

Canvas organiser with four large pockets. Hangs over headrest supports and secures with adjustable straps.

OLSO

ROOF NET

Increase storage capacity safely and securely

Adjustable webbing net with corner metal rings and securing straps attaches to grab handles or bolts in place using supplied metal mounting tabs.

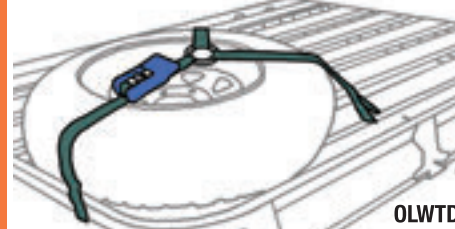

OLRNS (small): 370 x 1200mm
OLRNL (large): 900 x 1100mm

WHEEL TIE DOWN

Tie down tricky items safe and fast

Three-leg strap and ratchet mechanism securely holds spare wheel, gas bottle or other difficult items. Attach to roof rack using eye bolts or similar.

OLWTD

WINCH DAMPER

Stops backlash in case of cable failure to make recovery safer

Simple lightweight, easy to use endless loop design with pockets to allow ballast to be added. Stores flat.

RGWRD1

CANVAS DUFFLE RUBBISH BAG

Makes taking rubbish out of the bush easy – great as a kit bag too

Canvas bag with draw cord top. Ideal for camp rubbish or general storage. Accepts standard 56-litre plastic garbage bag to keep it clean and smell-free.

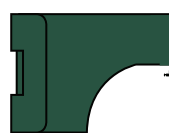

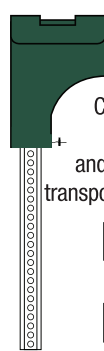

OLCRB

HI-LIFT JACK BAG

Protects from dirt and weather to keep jack clean and smooth

Canvas 'short' bag protects the important mechanism and allows easy mounting for transport. Suits most hi-lift jacks.

RGJC

CUTLERY ORGANISER

Keeps cutlery safe and secure, folds up easily to use minimal space

Compact, rattle-free storage for kitchen implements and four place settings.

OLC04

TIE-DOWN SOLUTIONS

ANCHOR TRACK

The most versatile tie-down solution.

Machined aluminium extrusion with clip-out load rings lets you move tie-down points where you want them. Track fixes almost anywhere via countersunk screws and nyloc bolts. Three lengths available.

OLTD6 150mm (x2 load rings + fittings included)

OLTD7 1000mm (x2 load rings + fittings included)

OLTD8 2000mm (rings + fittings not included)

LOAD RINGS

Add extra rings to Anchor Track for more tie-down points. x2 29mm dia. load rings

OLTD4

LOAD RING & BASE

Quick release load ring and round smooth-mount base. Smart looking and versatile **OLTD5** no bolts included

FLUSH MOUNT

Combined load ring and base mounts flush to prevent snagging **OLTD3** 10mm dia. ring 95x102mm base, 25mm deep

LASHING RINGS

Easy to install where you need them.

OLTD2
x2 6mm
zinc-plated
lashings rings

EYE BOLTS

Complete with 8mm stainless bolt and washer. **OLTD1** x2

STRATCHIT TIE DOWN

Combination webbing and elastic strap with adjustable locking buckle and steel carabiners for quick, secure attachment. Extends from 550 to 1800mm. **OLSTRAT** x2

ROOF CONSOLES

Outback Roof Consoles are made to look like part of your vehicle, not a part from it! Stylish and practical, an interior roof console is an ideal vehicle accessory for the Offroad Adventurer.

The Outback Roof Console is an award winning aftermarket accessory designed to suit station wagons, dual cabs, extra cabs, single cabs and dual chassis vehicles.

Featuring energy saving LED rear and side lights, radio surrounds to suit a range of models and easy access storage in an all-in-one, leather grain finished unit.

Speak to Opposite Lock about upgrading the interior of your vehicle by installing an Outback Roof Console.

CARGO BARRIERS

Installation requires no drilling, the top mountings fasten to existing bolt holes, barrier fastens to bottom mountings using highly visible “red dot” hand bolts. Outback Interiors unique nylon grip brake assembly and secondary impact brackets absorb impact and inertia.

Easy removal and storage for that unexpected long load (*no tools required*), simply undo the five red dot hand bolts and store barrier in front of folded rear seats.

STEEL FUEL TANKS

GET MORE RANGE WITHOUT COMPROMISING CLEARANCE OR DEPARTURE ANGLES

Whether you're planning a big trip, or simply want to save by refuelling when prices are low, the solution to covering long distances between fill-ups is to fit a high capacity Outback Accessories replacement, auxiliary or LPG conversion tank.

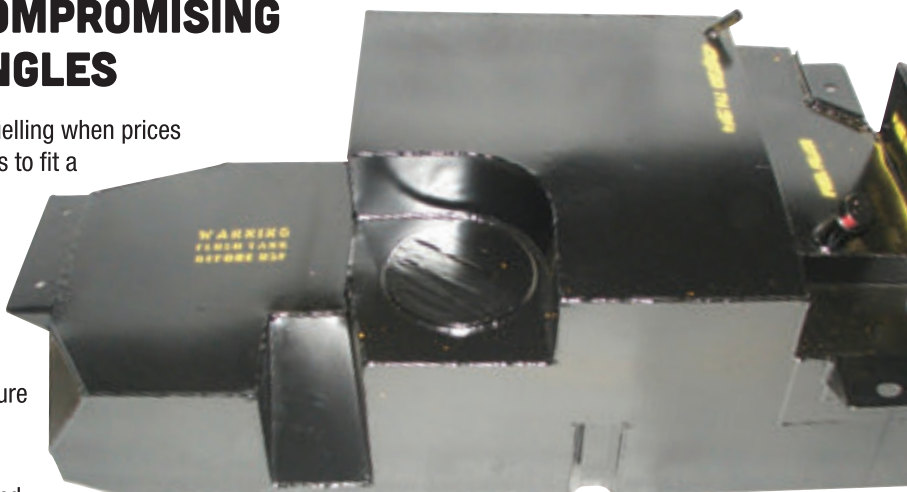

Produced using the latest (CAD/CAM) computer-controlled design and manufacturing equipment, Outback Accessories tanks are designed and built for strength, durability and complete reliability using superior 2mm aluminised steel and MIG welding with quality inert shielding gas and level layer wound wire to ensure good penetration and exclude porous welds.

With over two decades of experience developing tanks for use in tough terrain, Outback Accessories' designs offer maximum ground clearance with no compromise to departure and ramp-over angles, and

feature strategically placed mounting points to relieve the stresses caused by chassis twist when used in extreme conditions.

Supplied with a complete fitting kit and full instructions, Outback Accessories tanks require no exhaust modifications and retain existing *oem* parts where possible.

Manufactured to the highest standards, and cleaned, checked and pressure-tested prior to coating, all tanks are covered by a comprehensive two-year warranty. You can rely on an Outback Accessories tank – that's guaranteed!

- 2mm MIG WELDED ALUMINISED STEEL
- CNC-MACHINED PUMP/SENDER GAUGE FLANGE ACCEPTS OEM EQUIPMENT
- FULLY VENTED TO VEHICLE EMISSION SYSTEM
 - EXPANSION CHAMBER TO PREVENT PRESSURE BUILD-UP
 - FAST-FILL FILLER TUBE AND VENTS
- EASILY ACCESSIBLE PROTECTED DRAIN PLUG
 - FULLY INTERNALLY BAFFLED TO PREVENT FUEL SURGE
- PRE-DRILLED MOUNTING ATTACHMENTS STRATEGICALLY PLACED TO PREVENT STRESS UNDER CHASSIS TWIST
- REQUIRES NO EXHAUST MODIFICATIONS
- TOUGH STRUCTURAL ENAMEL EXTERIOR COATING
 - 2-YEAR WARRANTY

FUEL TANKS

STORAGE

Long range and auxiliary fuel tanks are essential for any vehicle venturing out on remote trips.

Many of the cross country or outback treks involve stretches between fuel stations too far for most factory vehicles to reach (some are over 1000kms between stations!), as a result long range tanks have become a must have for anyone hoping to reach from one side to the other.

Opposite Lock stock and install a wide range of auxiliary fuel options from strong and safe steel tanks, highly modular poly fuel tanks for universal trayback applications, as well as every kind of jerry can and fitting accessory under the sun.

Don't get caught, plan and prepare for anything when it comes to fuelling your 4x4.

STEEL FUEL TANKS

Most standard petrol and diesel fuel tanks are made from plastic as few vehicles are ever equipped to handle the extreme Australian offroad from factory.

Piercing your only fuel tank hundreds of kilometres from the nearest repair centre is not a fun scenario to be stuck in, that's why steel fuel tanks have become the 'must-have' upgrade when doing long distance trips.

Aside from giving your 4x4 the ability the travel further than the small factory tank allows, the peace of mind offered from having a steel fuel tank under the floor is nearly priceless.

POLY FUEL TANKS

Perfect for use in Ute and Truck trays or even in trailers, Poly tanks use the same compounds as the poly fuel tanks fitted to many new 4WD vehicles and include a Flourinating process making the tanks suitable for Diesel & Petrol fuels.

Poly fuel tanks can be secured with good quality tie down straps or other custom made brackets and straps.

FUEL ACCESSORIES

Trying to make sure you have the right fuel system in place for your 4x4 can be a tricky experience to begin with, that's why Opposite Lock have not only a wide range of options to make you get the right setup, but stock all the small bits and spares you'll need to keep your new fuel system safe and maintained.

Everything from hoses, taps, ventilation accessories and fuel guards are available through Opposite Lock.

Remember to ask the staff at your local Opposite Lock for some advice about fuel systems next time you're in store too!

BOAB POLY TANKS

THE EASY, AFFORDABLE WAY TO CARRY MORE FUEL & WATER

40-litre FOOTWELL

Shaped to fit in footwell behind front seats. Ribbed top is strong enough to support items stored on top of tank

Dimensions (h x w x l): 190 x 250 x 1200mm

Tunnel cutout (h x w): 110 x 420mm at base.

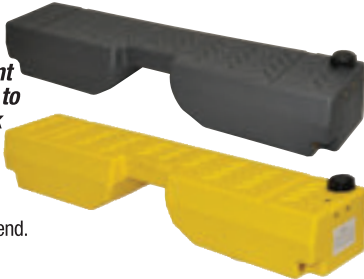

Console cutout (h x w): 60 x 200mm

Screw cap filler: 1/2" BSPT brass outlet each end.

Nutserts for handles/mounts.

WTP40FW Poly Water 40Lt Footwell

FTP40FW Poly Diesel 40Lt Footwell

42-litre VERTICAL

Vertical design with wheel arch cut-outs for use in most wagons and utes

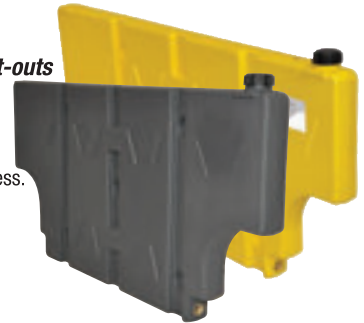

Dimensions (h x w x l): 600 x 75 x 1295mm

Cutouts (h x w): 250 x 200mm

Screw cap filler: 1/2" BSPT brass outlet in recess.

WTP48V Poly Water 42Lt Vertical

FTP48V Poly Diesel 42Lt Vertical

45-litre VERTICAL OR FLAT

Spigot filler neck allows mounting vertically behind seats and in front of ute trays, or flat on roof racks, ute trays or under false floors

Dimensions (h x w x l): Top: 580 x 90 x 1090mm

Base: 985mm length

Remote or close-coupled filler cap. Brass outlet and breather fittings. Spigot suits 38mm ID hose. Filler kit WTP/FTPFK1 optional.

WTP45FV Poly Water 45Lt Vertical or Flat

FTP45V Poly Diesel 45Lt Vertical or Flat

50-litre TAPER

Universal fit with taper design to maximise space. Ideal behind seats in wagons or in ute tray

Dimensions (h x w x l): Top: 350 x 150 x 1000mm

Base: 350 x 200 x 1000mm

Screw cap filler: 1/2" BSPT brass outlet.

WTP50T Poly Water 50Lt Taper

FTP50T Poly Diesel 50Lt Taper

55-litre RECTANGULAR

Universal design for use on roof racks and ute trays

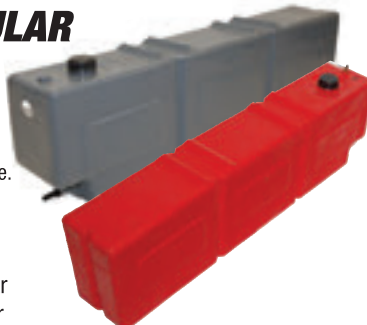

Dimensions (h x w x l):

310 x 195 x 1120mm

Screw cap filler. Outlet to suit 12mm hose.

WTP55U Poly Water 55Lt Rectangular

FTU55P Poly Diesel 55Lt Rectangular

58-litre VERTICAL OR FLAT

Spigot filler neck for flat or upright mounting and concealment in storage system or ute canopy with remote hose and filler.

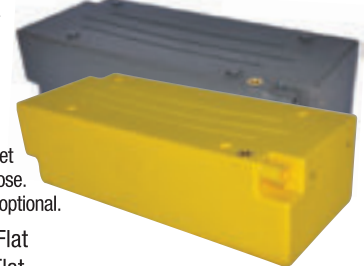

Dimensions (h x w x l): 235 x 345 x 840mm

Remote or close-coupled filler cap. Brass outlet and breather fittings. Spigot suits 38mm ID hose.

Nutserts for mounting. Filler kit WTP/FTPFK1 optional.

WTP60FV Poly Water 58Lt Vertical or Flat

FTP60FV Poly Diesel 58Lt Vertical or Flat

40-litre UNDER TRAY

Taper design to mount under ute or truck tray next to wheel.

Dual outlets for left- or right-hand use

Dimensions (h x w x l):

Top: 375 x 265 x 520mm

Base: 375 x 265 x 375mm

Includes universal mounting brackets, filler cap and tap.

WTP40Ute Poly Water 40Lt Under Tray

80-litre UNDER TRAY

Heavy-duty construction designed for use under ute trays, off-road camper trailers, and caravans

Dimensions (h x w x l):

115 x 805 x 1070mm

Two outlet positions. Supplied as a bare tank with no fittings, mountings or hoses.

WTP80F Poly Water 80Lt Under Tray

120-litre RECTANGULAR

Large capacity tank ideal for use in ute and truck trays and some camper trailer applications.

Dimensions (h x w x l):

335 x 500 x 815mm

Screw cap filler. Outlet to suit 12mm hose.

WTP120U Poly Water 120Lt Rectangular

JUST ADD WATER...OR MORE FUEL!

Carry the fuel and water you need when you want, where you want, with BOAB Poly Tanks. Designed for 'drop-in' installation, BOAB tanks are simple to fit, easy to remove, and come in a range of sizes and capacities to mount internally behind seats, in the luggage area, across the footwell, on the roofrack, or in ute trays and trailers. Or mount them permanently and plumb them in the way you want with BOAB's optional hoses, filler caps, vent and pump systems. Tough and strong enough to last a lifetime, BOAB Poly Tanks are made from hard-wall polyethylene to withstand harsh off-road conditions giving you heavy-duty durability with less weight than steel tanks. FTP/U tanks and fitting are diesel safe while WTP tanks are manufactured from BPA-free, food-grade materials for safe water storage. So don't run out of fuel or die of thirst...get a BOAB Poly Tank today!

OVERALL DIMENSIONS SHOWN – FILLER CAP HEIGHT (approx. 30mm) NOT INCLUDED. STATED CAPACITIES ARE APPROXIMATE. PHOTOS FOR ILLUSTRATION PURPOSES ONLY. SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE. FOR MORE INFORMATION VISIT www.dolium.com.au

WATER TANKS

STORAGE

Storing and carrying the right amount of water when travelling can be tricky, our extensive range of poly tanks have you covered.

Our range of poly water tanks are designed to fill in the redundant space cavities around your 4WD, whether it's over the wheel arch of a dual cab, the floor space in the back seat or laying low and flat in the boot. Some tanks are even custom made for vehicle specific contours to get that perfect fit.

Designed to withstand 4WD and offroad conditions and made from food grade polyethylene these hard wall tanks don't taint the taste of water and can be easily cleaned should it be necessary to top up with brackish water at any time.

45L FLAT/VERTICAL TANK

This cleverly designed poly tank is extremely strong and shaped to sit either standing up or lying flat. Nutserts top and bottom allow for easy mounting solutions including underneath tray back utes..

The tank has 1/2" brass outlets each side for connection of a hose and tap. This fitting uses a standard hardware plumbing thread to allow for custom installations.

Dimensions: 1090W x 580H x 90D (mm)

40L FOOT WELL TANK

This poly tank is built tough and formed to sit on the vehicle floor behind the front seats in cars and wagons. The cutout spans the transmission tunnel, while the non-slip top section can be used as a floor for children or for loading luggage etc.

The tank has 1/2" brass outlets each side for connecting a hose and tap. This fitting uses a standard hardware plumbing thread to allow for custom installations.

Dimensions: 1200W x 190H x 250D (mm)

120L UNIVERSAL TANK

Great for in a ute or truck trays, and can suit some camper trailers or other applications. With a huge 120L capacity this tank is the ideal choice for families and for those not only looking for fresh drinking water on long trips, but a clean source of shower water too.

Dimensions: 820W x 300H x 500Deep (mm)

ADVENTURE DRIVEN

Just like any great adventure this Opposite Lock Product Guide had to come to an end sometime! No worries, I reckon you've got more than a few ideas on what you'll need to make your own adventure now. With so many tried and tested products to choose from you're guaranteed to be on the way to a safer, easier and happier trip whether it's around the block or around this wonderful country!

You don't have to make all these choices yourself though. Down at your local Opposite Lock store you'll find fellow enthusiasts who can share their own experiences and that of the combined OL group to make sure you've got what it takes.

Most of all though, make sure you get out and enjoy as much of our incredible Australia as you can as often as you can.

Yep, I'm proud to be a small part of a big organisation dedicated to helping you drive your dreams further. Opposite Lock, Adventure Driven!

I'll see you up a track eh!?

- John 'Roothy' Rooth
